

Principal's Message

Prof (Dr) Dhananjay Shrikant Kotasthane

Principal

Autonomous State Medical College, Gonda

At Autonomous State Medical College, Gonda, our goal is to provide a high standard of medical education within a supportive learning environment. We recognize that each student is unique and that today's learners require an education that equips them to face the challenges of a competitive world. While academic excellence is crucial, students also need strong communication skills, an understanding and appreciation of global cultures, good character, a commitment to lifelong learning, and the ability to contribute positively to society.

Education is an ongoing process that prepares individuals to achieve self-fulfillment by offering opportunities to develop their personalities and instill a sense of civic responsibility. As the Principal of this college, I am committed to ensuring that every student receives the best medical education possible, helping them reach new heights in life. I also strive to guide teachers and staff to work collaboratively as a team for the betterment of both the college and its students.
